Top-Performing, Best of Breed Cotenancy

"We've never had a better opening... And it keeps going, best store in the district, month after month. Unbelievable. There is a huge market here for quality. And we're in the center of it. This location, Westlake, is in the center of everything."

-- Phil Ward, Store Manager since 2003, Panera Bread

"We were thrilled to relocate our Peoria store in a new, beautiful, and bustling Westlake Shopping Center. The location and tenant mix is so much better. Today we have a beautiful new store and higher sales."

-- Christy Graber, Store Manager, Michael's

"The center draws from all age groups. The tenants really help each other -- This place is hot, it's the high traffic area. And the outdoor patio is fantastic, we're very comfortable here."

The Market: Immunize Yourself From Amazon

Peoria, Illinois - the city which gave the world its first antibiotic, penicillin, in 1942 -- is now the largest Regional Medical Center in the State of Illinois outside of Chicago.

Peoria's largest employer is healthcare – Internet and recession resistant and growing, this **second largest metro market in the state** has five hospitals, **The University of Illinois School of Medicine**, a *US News and World Report* nationally ranked **Children's Hospital of Illinois**, major healthcare services and biotech research centers unrivaled in Illinois, including **Jump Medical Simulation Center**, an artificial intelligence driven virtual reality medical simulation center attracting medical researchers and doctors in training nationwide.

More Life Flight helicopters than Chicago: OSF Saint Francis Level 1 Trauma Center flies **five life flight helicopters to service its Level I Trauma Center**. Cook County, Chicago, the second most populous county in the United States, flies four. The largest Level 1 Trauma Center in the state outside of Chicago requires a critical mass of Peoria doctors, medical professionals, and technicians across all medical disciplines to be available within a 30 minute drive of downtown Peoria.

An Internet and recession resistant regional medical hub: a full 25% of Peoria's employment is healthcare – compared to 13 percent average nationwide (Scan US, 2018). **Over \$2 billion** research annually; **over \$1 billion** in new medical buildings and infrastructure in the past decade; over \$75 million in new buildings in 2018 alone.

Bloodlines run deep in this white oak forested escarpment along the Illinois River – the oldest European settlement in Illinois. The world's leader in distilleries before Prohibition deposited some of the most beautiful homes in Illinois throughout the Illinois River Valley, overlooking **the largest chain of Park Districts and acreage in the state**. Peoria is home to the top 100 Art Fairs in the nation, a Civic Center designed by Philip Johnson, the world's largest four mile foot race (Steamboat Classic), and the oldest Santa Claus parade in the United States.

Seventh highest ranked regional college in the Midwest, Bradley University is here. So is the village of Morton – **Top 10 Best Towns for Families** by Family Circle magazine (2013), and **#1 in Illinois** for families (Urban Matter, 2016).

A Forbes Top 10 Best Cities for starting a business in 2015, with the **third fastest growing airport in the United States** and a workforce exceeding 200,000, including **ADM, Caterpillar** (former world headquarters), **Komatsu, Maui Jim** (world headquarters), **RLI** (world headquarters) **OSF Healthcare** (headquarters), **Unity Point Hospitals** (three hospitals in the Peoria area) and the **United States Department of Agriculture National Center for Agricultural Utilization Research**, where penicillin was born, in 1942.

Rarifying The Customer Experience

The largest interlocking concrete paver parking lot in the United States comes with the first of its kind in the industry 30 year warranty from the largest manufacturer of concrete products in the world, **protecting all Westlake tenants** from common area asphalt costs, while calming and slowing vehicle traffic, improving walkability for customers – cooler in the summer, better grip in the winter, brighter at night, and calming and soothing to behold.

Try saying that about an asphalt lot.

“This place is hot, it’s the high-traffic area. In the outdoor patio is fantastic. We’re very comfortable here.”
 - Mike Pittileo, Store Manager, Five Guy’s Burgers and Fries
